

SMART MESSAGE Text/Email/Phone

HEALTHCARE COMMUNICATIONS

Be Smart—use **Smart Message** to automatically contact your patients!

Using state of the art technology, Smart Source gives you the ability to integrate multiple methods for reaching large volumes of patients using tools that consist of:

- Automated **phone** messages
 - Automated **text** messages
 - Automated **email** messages
- All 3 for one fee of 5¢**

MOST COMPETITIVE PRICING ON THE MARKET TODAY!

We are different!

We provide high quality, professionally recorded messages and texts. Our technicians assist with the data interface set-up as well as scripting and training. We make up to 10 dialing attempts at no additional fee. We will dial up to 4 different telephone numbers, per patient, in cascading sequence. All phone calls are recorded, stored, and available for access indefinitely. Smart Source allows you to control the entire process in order to manage “do not call” patients as well as no show rates and much more. Multiple languages are available also.

Easy to Use User Portal Dashboard

Overview	By Phone	By Email	By Text
58	All Appointments		
25	Confirmed Responses		
15	Confirmed by phone		
10	Confirmed by Text Msg		
2	Canceled Responses		
1	Canceled by phone		
1	Canceled by Text Msg		
19	Delivered		
16	Message left on answering machine		
2	Text Msg Reply - Needs Review		

Our reports are easy to use and understand. Opt-in and opt-out features incorporated.

Ask us for a demo

We'd be happy to show you our phone, texting and emailing, so you can see and hear what your patients will see and hear.

Ask us about our **prepay option** for easy collection of copays and deductibles.
